THIS FORM IS FOR YOUR INFORMATION ONLY. DO NOT SUBMIT AS A PART OF ANY APPLICATION.

Each application has its own billing process that is personalized and MUST be completed through the fee submittal form that is a part of each application. This informational/reference guide merely summarizes the fee structures found in [WAC 212-80](#) as a whole and ONLY applies to licensing and certification issued under [RCW 18.160](#).

Initial applicants for licensing and certification both pay a one-time initial application fee and an annual fee, which is prorated based upon the month of initial issuance. Both the application fee and proration of the annual fee only occur once in the lifetime of the company/individual. Renewals and reinstatements pay the full annual costs with no application fee.

For those applying for licensing as a Fire Protection Sprinkler System Contractor:

- The licensing initial application fee is \$100.00.
- Those applying for licensing as a sprinkler contractor for the first time would reference the chart below for the pro-rated annual fee. It details the amount due by month and level, which will cover the remainder of your first year.
- Renewals and reinstatements are not pro-rated, so pay the full annual cost of licensing. This is the amount listed below for the month of January of each licensing level.
