To apply for certification as a Level 2 Certificate of Competency Holder, you will need to:

- 1) Work for a fire protection sprinkler system contractor licensed at either Level 2 or 3. Your level of certification cannot be issued under any other licensing level.

THIS IS A LIMITATION OF CERTIFICATION PER [RCW 18.160](#)

- 2) Attach evidence of qualifying for certification as a Level 2 Certificate of Competency Holder as either:
 - a. Being a properly registered Washington State Professional Engineer. Including a copy of your engineering seal with the application will be sufficient evidence.
 - b. Possessing certification through the National Institute for Certification in Engineering Technologies (NICET) of at least Level 2 in Water Based Systems Layout. Provide a copy of that certification.
- 3) DO NOT SUBMIT any fees initially. You will be billed once the application has been deemed complete, valid, and legal using the fee submittal form you will complete as a part of this application.

With regards to the certification costs, there is an initial application fee of \$50.00 and an annual certification fee pro-rated from \$50.00. This pro-ration is based upon the month of your initial certification and does not include the cost of your employer's licensing (if necessary).

- 4) Leave NOTHING blank in this application. Use "NOT APPLICABLE," "DOES NOT APPLY," or other similar mark. You are also responsible for accurately recording your employer's full (licensing) name.
- 5) Print legibly, complete electronically, or have it typed. If it cannot be read, it CAN BE REJECTED.
- 6) Return ALL portions of this document marked "MUST RETURN AS PART OF THE APPLICATION." Unless otherwise instructed, partial or incomplete submissions – on any level – WILL be discarded.
- 7) Include a copy of a government-issued photo identification that possesses a sample of your signature.

- 9) A completed and otherwise legal to issue application can take between two (2) and ten (10) working days to process and issue, depending on the circumstances.

INCOMPLETE/ILLEGIBLE SUBMISSIONS WILL BE DELAYED OR SUMMARILY REJECTED

Those applying as a **Level 2 CERTIFICATE OF COMPETENCY HOLDER** should be aware of the following:

- Certificate Holders are NOT a fire protection sprinkler system contractor and CANNOT bid for any work themselves. If you act as a fire protection sprinkler system contractor, you will be treated like one – including the fines for unlicensed operations.
- A Certificate of Competency Holder can only work for ONE (1) licensed fire protection sprinkler system contractor at any one time and your certification is issued under that single license. In this way, you are considered to be working full time as required by law. Notify us of any employment changes within thirty (30) days and before engaging in work as a Level 2 Certificate of Competency Holder for another employer.
- If your employing contractor is currently licensed, it would normally be as Level 2. However, you can also be employed by a Level 3 contractor, just not as their only Certificate of Competency Holder. Now while the company can work on any kind of system, Level 2 certification limits your work to only residential occupancies as defined/referenced by NFPA 13 – D and/or NFPA 13 – R. This includes the dedicated underground fire service main.
- When your employer is applying for licensing with you as the only certificate applicant, they can only apply for licensing as a Level 2 Fire Protection Sprinkler System Contractor.
- Level 2 is the second level of a tiered system. The Level 2 Certificate of Competency allows you to either personally perform or supervise any and all aspects of any and all portions of a residential fire protection sprinkler system as referenced/defined by NFPA 13 – D and NFPA 13 – R. You **CAN NEVER** work beyond your level of certification or outside the scope of your employing contractor’s license.
- You are responsible for any and all use of your certification stamp.
- This is an annual program based upon the calendar year. Everything issued expires December 31 of the year of issue. NO EXCEPTIONS.
- Reference the chart below for more details on work allowed by the individual certification level. PLEASE NOTE these are specific to those carrying the certification, as some functions can be supervised.
