

## **NFIRS Training**

- **Documenting the Incident**

This course is designed to walk the user through the NFIRS modules, field by field. NFIRS 5.0 included 5 required modules and 6 optional modules. Instruction time is approximately 12 hours to cover all modules. Instruction can be tailored to meet the needs of the fire jurisdictions reporting.

Fire agencies may contact Melissa Gannie at (360) 753-523 to request as course. Minimum of 12 students required. Partnering with neighboring fire agencies is encouraged.

- **Practical Use of NFIRS Data**

Students will learn how to use Excel's Pivot Tables in conjunction with NFIRS 5.0 data. This course is designed to expand the knowledge base of NFIRS data users, decision makers, and information technology staff.

Courses are offered periodically throughout the state. Information will be posted on the NFIRS website as well as distributed through the NFIRS e-mail distribution list.

- **NFIRS E-mail Distribution List**
