December 14-15	December 16-19	December 14-19

\*\* All students must show evidence of satisfactory completion of an approved Basic Marine Firefighting Course meeting the current STCW 95 requirements to attend the Advanced Marine Firefighting Course.

## **Verification of Identity of Students Attending Coast Guard Approved Courses**

In compliance with NMC Policy Letter 11-02, July 2002, each school is required to verify the identity of its students by one of the following forms of photo identification:

- ✘ U.S. Coast Guard issued Merchant Mariner Document (MMD)
- ✘ U.S. Coast Guard issued STCW 95 certificate (with photograph)
- ✘ STCW 95 certificate (with photograph) issued by a foreign country
- ✘ U.S. Passport (un expired or expired)
- ✘ Un expired foreign passport
- ✘ United States Armed Forces identification card
- ✘ Identification card issued by federal, state, or local government agencies, provided it contains a photograph
- ✘ Driver's license or identification card issued by a state or U.S. possession, provided it contains a photograph
- ✘ Permanent Resident Card or Alien Registration Receipt with photograph (INS Form I-151 or I-551)
- ✘ Un expired Employment Authorization Document issued by the INS which contains a photograph (INS Form I688B)

A photo static copy of the identification shall be made and kept with the student's training record. Students who refuse or are unable to provide the required identification, as described above, will not be allowed to participate in the training nor be issued a course completion certificate.

## **U.S. COAST GUARD APPROVED STCW MARINE FIREFIGHTING**

The marine firefighting mockup is designed as a mixture of a steam engine room and diesel room. It is intended to provide training for bilge fire, fuel line failure fires, boiler fires, fuel tank overflow fires, engine room access procedures.

### **Basic Marine Firefighting - MFC-011 -- \$385 per student**

This course aims to provide the training for candidates in fire prevention and fire fighting in accordance with the 1995 STCW Convention Chapter VI, Section A-VI/1, paragraph 2 and Table A-VI/1-2. On meeting the minimum standard of competence in fire prevention and fire fighting, a trainee will be competent to take appropriate measures for the safety of personnel and of the ship and to use fire appliances correctly. The trainee will also have knowledge of fire prevention.

### **Advanced Marine Firefighting - MFC-004 -- \$595 per student**

This course is designed for all seafarers with safety or pollution prevention duties. This course covers the training required by STCW Section A-VI/3, as outlined in Table A-VI/3, Annex Two of the International Maritime Organizations (IMO) Resolution A.437 (XI) "Training of Crews in Firefighting" and the Code of Federal Regulations (CFR).

Prerequisites: Certification of Completion from a qualified "Basic Marine Firefighting Course"

**Combination Basic/Advanced Marine Firefighting - MFC-007 -- \$915 per student**

This 43-hour course is designed especially for those personnel seeking US Coast Guard maritime licensing. The program will provide both basic and advanced firefighting training following the International Maritime Organization (IMO), STCW guidelines and is Coast Guard approved.

**ADDITIONAL MARINE/PRIVATE FIREFIGHTING**

**Self Contained Breathing Apparatus - MFC-005 -- \$135 per student**

This 4-hour course deals with types of self contained breathing apparatus, donning, doffing, maintenance, and care of the unit. This course does not meet NFPA standards and is only intended as an introduction.

Prerequisites: None

**Live Fire Team Training - MFC-008 -- \$150 per student**

This 8-hour course provides the opportunity for emergency response teams to combat live class (A) alpha and or class (B) bravo fires. It is recommended that personnel attending this course be members of an organized emergency response team. All personnel attending will be rotated through the assorted positions on a fire party during the training day. Instructors will observe and critique the actions of the team at the end of each drill sequence.

Prerequisites: None

**Industrial Fire Brigades - IFC-003 -- \$715 per student**

This 24-hour course conducted over three days is specifically designed to meet the NFPA standards for industrial fire brigades. It provides step-by-step instructions for the prevention or control of fires and emergencies in the industrial work environment. This course is outlined to produce a competent individual who can function as a trained member of an industrial brigade emergency response organization. It teaches the same Firefighter 1 methodology employed by municipal fire departments and assumes participation in a tiered system. The program offers instruction in fire safety, fire science behavior, response of fire brigades, mutual aid, capabilities, and limitations of extinguishing agents and equipment, hazard control, restoration of operations, self contained breathing apparatus, and search and rescue procedures. Practical applications of classroom principals are taught in several challenging fireground applications.

Prerequisites: None

## **Payment/Cancellation**

Cost for the 17 ½ hour Basic Marine Firefighting Course is \$385.00 per student.  
Cost for the 32 hour Advanced Marine Firefighting Course is \$595.00 per student.  
Cost for the Combination Marine Firefighting Course is \$915.00 per student.

Payment in full must accompany your registration form. A full refund will be provided if the Fire Training Academy receives a written request for cancellation at least five working days prior to the scheduled start day. Payment by purchase order or invoice is also accepted for organizations and companies.

Checks should be made payable to **WASHINGTON STATE PATROL** and mailed to the following address:
