This line shows what you queried, either license plate or VIN (Vehicle Identification Number).

This is the CURRENT license plate assigned to this vehicle. It may be different than what you ran (if the plate on the vehicle has been superseded). DOL will always show what plate is currently assigned to the vehicle.

This is the expiration of the license plate.

This is the current TAB assigned to the vehicle. Same as with the license plate, it may be different than what is physically on the plate. Also DOL has begun to reuse the same TAB characters, so you need to double check the year of the TAB that you are looking at.

This line is the Tonnage amount, Tonnage Issue date, and Tonnage Expiration. The tonnage expiration may be different than the license expiration, especially on commercial vehicles.

Registered owner information, including OLN/PIC if available

Notifications: Many different notifications are possible here. In the example, this vehicle had been entered into WACIC/NCIC as stolen – DO NOT CONFIRM STOLEN ON THIS FLAG ALONE – THE VEHICLE MUST BE IN WACIC/NCIC TO BE CONSIDERED STOLEN
