Please read instructions carefully. Incomplete or missing information may delay processing and/or result in rejection.

To apply for certification as a **Level 3 Certificate of Competency Holder**, you will need to:

- 1) Work for a licensed fire protection sprinkler system contractor. The only contractor who may employ your level of certification is a Level 3 Fire Protection Sprinkler System Contractor. *(This is a limitation of certification per RCW 18.160)*
- 2) Attach evidence of qualifying for certification as a Level 3 Certificate of Competency Holder as either:
 - a. Being a properly registered Washington State Professional Engineer. Including a copy of your engineering seal with the application will be sufficient evidence.
 - b. Possessing certification through the National Institute for Certification in Engineering Technologies (NICET) of at least Level 3 in Water Based Systems Layout. Provide a copy of that certification.
- 3) **You MUST include a copy of a government-issued photo identification that possesses a sample of your signature.**
- 4) DO NOT SUBMIT any fees initially. You will be billed once the application has been deemed complete, valid, and legal using the fee submittal form you will complete as a part of this application.

With regards to the certification costs, there is an initial application fee of \$50.00 and an annual certification fee pro-rated from \$50.00. This pro-ration is based upon the month of your initial certification and does not include the cost of your employer's licensing (if necessary).

- 5) Please complete all sections of this application. Write "NOT APPLICABLE," "DOES NOT APPLY," or other clarifying statements.
- 6) Return all portions of this document marked "MUST RETURN."
- 7) This is an annual program based upon the calendar year. Everything issued will expire December 31 of the year of issue.
- 8) Submit a **completed** application in its entirety either on its own (if working for a currently licensed contractor) or enclosed as a part of a new licensing application remarked on their fee submittal form to:

Those applying as a **Level 3 Certificate of Competency Holder** should be aware of the following:

- Certificate Holders are not a fire protection sprinkler system contractor and cannot bid for any work themselves. If you act as a fire protection sprinkler system contractor, you will be treated like one – including the fines for unlicensed operations.
- A Certificate of Competency Holder can only work for one (1) licensed fire protection sprinkler system contractor at any one time and your certification is issued under that single license. In this way, you are considered to be working full time as required by law. Notify us of any employment changes within thirty (30) days and before engaging in work as a Level 3 Certificate of Competency Holder for any other employer.
- Your employing contractor must be licensed by this office as a Level 3 Fire Protection Sprinkler System Contractor. If they are not currently licensed, they must apply for licensing as you apply for certification. If they choose not to apply for licensing, you cannot be certified as a Certificate of Competency Holder.
- A Level 3 Certificate of Competency Holder can only work for a Level 3 Sprinkler Contractor.
- By virtue of RCW 18.160, your certification level allows you to personally perform or in some manner supervise any and all aspects of fire protection sprinkler system work on any kind and any part of a fire protection sprinkler system. This includes the dedicated underground fire service main.
- You are responsible for any and all use of your certification stamp.
- This is an annual program based upon the calendar year. Everything issued expires December 31 of the year of issue.

(Please note these are specific to those carrying the certification as some functions can be supervised.)
