Fire Sprinkler System Requirements for Storage 1 Day/8 Hours

Course Synopsis:

Storage is one of the most challenging fire protection scenarios. This course is based on NFPA 13 and reviews the key decision points to apply an approved design option for fire sprinkler use with storage applications. Utilizing an interactive teaching method, this seminar follows the path that an engineer, designer, or AHJ uses when evaluating storage protection. The foundational questions of "What is being stored?", "How is it stored?", and "How high is it stored?", are reviewed in detail. Once these questions are answered, the various design approaches are considered to determine the best solution for the particular scenario. The seminar ends with a hands-on activity using the information shared in the course.

Audience: Certificate of Competency Holders, AHJ

Instructor: Fire Smarts, LLC

Recommended NFPA Standard: 2013 NFPA 13 (Copies not provided)

Class Date/Time	Location
April 7, 2020 8:00 a.m. – 5:00 p.m.	Central Pierce Fire & Rescue Station # 71 902 7th Street NW Puyallup, WA 98371

CEU credits: All classes are eligible for CEU credits. To receive credits and/or a Certificate of Attendance, you must attend the entire training.

Registrations: Training spots are given on a first come, first serve basis. Attendance is limited to 30 students per class. You must register with our office prior to attending; no walk-ins allowed. Email registration form to firesprinkler@wsp.wa.gov or fax to (360) 596-3934; forms must be submitted at least 15 calendar days prior to the course. A confirmation email will be sent within 5 business days confirming attendance.

Cancellations: If you are unable to attend the training after completing registration, please notify the SFMO as soon as possible.

For more information or any questions, please email firesprinkler@wsp.wa.gov or call (360) 596-3946.
