## Introduction to Fire Sprinkler Systems 1 Days/4 Hours

### Course Synopsis:

This course is a high-level overview on fire sprinkler systems. The history and objective of fire sprinkler systems is reviewed. The three required components for a sprinkler to function are examined: automatic sprinkler; water supply, and the connection (piping) between the two. In addition, this course also covers the four major types of sprinkler systems and the associated components. Basic installation requirements are reviewed along with system acceptance.
